

## Company Description

**Coneixement INDIA (OPC) Pvt. Ltd.** aims to become a leading service provider in the STEM education ecosystem.

Our publication, **ENTECH Magazine**, assists students aged 13–18 and their parents in early-stage career planning in Engineering and Technology.

ENTECH is a magazine that comes out every month. It is for teenagers between the ages of 13 and 18 for early-stage career planning. It is common knowledge that eighth or ninth grade is the ideal time to begin career planning. Starting early provides enough time to understand likes and dislikes and explore career options. The magazine focuses on Science, Technology, Engineering, and Mathematics (STEM). It helps teens find out what they are interested in and what they love. ENTECH shows them how to turn their passion into a career. The magazine has short articles. These are written by professionals, innovators, researchers, and teachers. We have viewers all over the world
